I am expressed Dear Rev^d.
Mr Gauthier,

CAT B
No 69

Hull. Aug. 26/76

J. O. Morin Esq M. D.

Dr Sir

Histe Tétreau

N.P. with whom I understand you are acquainted. he having resided in your County is very much against our will and inclination about to be appointed Clerk of the Magistrates Court for the City of Hull. I should regret very much that this appointment should be carried out, as I object to this man Tétreau for reasons of my own, although knowing very little about him, as utterly incompetent and unreliable man, unsafe to fill any position of trust or confidence where the handling of other people's money are concerned. —

If you feel at liberty to write me anything which I cannot be public as far as exhibiting it to Dr Duhamel our local member for the County of Oxford or to the Government with whom I have Communication on the subject strictly private and confidential, as I wish you to consider this, I would not like to give our enemies an opportunity to cast such an appointment in our teeth, after what is ~~our~~ known of Tétreau in your County, also in your own.

Understanding under the very best possible authority that his record as a public officer in your County, sustains every thing which I have stated above, I have taken the liberty of writing you on information obtained from Judge Bourgoes, to ask if in the interest of Public Morals and of the interest of the Conservative Party, to which we both belong, that you furnish any information which would prevent our Government from making so discreditable an appointment. Any thing which you say to me will be considered
